

QUANTEM

A LOOK BACK ON OUR 2023...

We met significant project milestones!

From breaking ground to practical completions we've welcomed progress at every stage!

We've given back more than ever!

5ks, 10ks, triathlons and marathons!
We've raised **over £30,000** this year for a range of deserving causes..

We've grown!

With over 100 employees the practice is now larger than ever. We also celebrated five successful APC passes contributing to our strength and depth!

We are a
**Living
Wage**
Employer

**We became one of the few Living
Wage Employers in the industry!**

This means that staff of relevant working age
receive more than the Government minimum!

We've been appointed to a range of exciting projects!

One of the highlights being appointed to the delivery of **Metsä Tissue's** first UK manufacturing facility — providing **sustainable** local tissue production in the UK!

We completed the Heart of the City Climate Action course!

This helped us to understand,
assess, record our carbon
footprint and establish our
Carbon Action Plan for
achieving Net Zero by 2030.

Great Britain Olympian Susannah Townsend MBE attended our Annual Staff Conference!

She gave an insightful talk regarding the benefits of **teamwork** – and even brought her Olympic medals!

Both our UK offices had upgrades!

Improvements such as a bike storage area has benefited our staff's **wellbeing**.

SEASON'S GREETINGS FROM ALL OF US AT

**WE LOOK FORWARD TO FURTHER
SUCCESS WITH YOU IN THE NEW YEAR!**
